- DOWN VESTS
- WINTER HIKING BOOTS
- WINTER SCARVES
- SNOW PANTS
- HEAVY SOCKS

WHAT TO TOSS

To figure out what to get rid of ask these questions of the item. Use these as a guide, but ultimately you know your closet best.

1. Did you wear it this winter? If not, why did you not wear it? If yes, why did you wear it and how many times? Anything less than 3 times I set aside to toss or ask further question.

2. Do you feel you will wear it again next winter? If yes, set in the keep pile. If not, set it to be let go.

3. Do you feel your best in the piece? If yes, keep it. If not, toss it.

4. Do you feel the piece performed well? This is extra important in winter. If you have a coat that you were cold in you may want to consider tossing it and watching end of season sales for a new one.
